

HOW TO RIDE SAFELY WITH

We're doing our part.

- MTD is following science-based federal, state, and local public health guidelines.
- All buses are cleaned and disinfected with hospital-grade disinfectants according to official guidelines and best practices.
- All bus operators are required to wear face coverings correctly at all times.
- Capacity on the bus is limited to allow for physical distancing & space is first come, first serve.
- Employees experiencing symptoms are required to stay home.

We need your help.

- All passengers are required to wear face coverings correctly at all times on the bus & at bus stops.
- Passengers should limit conversation and cough or sneeze into their elbow.
- While on board or at a bus stop, be sure to keep 6 feet away from others, whenever possible.
- Wash hands with soap and water regularly, using hand sanitizer when handwashing is impossible.
- If you're sick, have any symptoms, or have been in contact with someone who has COVID-19, stay home.

Booster Service Information

Santa Barbara MTD is in communication with Santa Barbara Unified about plans to reopen school campuses to in-person learning. Should SBUSD secondary schools reopen in a hybrid or full manner, MTD plans to provide booster services to those campuses. Exact booster schedules will be released and publicized by MTD and SBUSD in advance of schools reopening.

Rules & Three Tier Process

Parents and guardians are asked to have a conversation with their students about the safety rules and requirements for waiting for and riding the bus. MTD reserves the right to refuse bus service to passengers who do not follow safety rules. MTD's three tier process on loss of bus riding privileges can be found at sbmtd.gov
